

Juan Andrés Carmona León

Software Engineer - Bogotá DC, Colombia
(320)269-9540 - juancarmona3090@gmail.com

PROFESSIONAL SUMMARY

Software Engineer (C1 English) with 3+ years of experience specializing in Experience Technology for global clients like Pfizer. Expert in Responsive and Dark Mode email architectures using "Bulletproof" HTML/CSS and VML. Certified Salesforce Email Specialist focused on Content Builder and technical asset management. Proficient in Fullstack development, creating custom automations with React and Astro to optimize engineering workflows.

WORK EXPERIENCE

Experience Technology Engineer | Publicis Global Delivery (PGD)

September 2023 - Present

- **Email Engineering & Architecture:** Developed high-fidelity Responsive and Dark Mode email architectures from scratch (HTML/CSS) for Pfizer's global campaigns, ensuring 100% brand alignment across regions, performing Unit Testing and multi-platform audits via Litmus to guarantee visual and functional integrity.
- **Design-to-Code Implementation:** Leveraged Figma and Adobe Creative Suite (Photoshop/Illustrator) to slice assets and translate complex UI/UX designs into pixel-perfect, bulletproof email code.
- **Advanced Rendering & Compatibility:** Implemented VML-based fallbacks and specialized coding techniques to guarantee flawless rendering across legacy Microsoft Outlook versions and diverse mobile clients.
- **SFMC Technical Management:** Managed technical asset structures, folder organization, and dynamic content blocks within Salesforce Marketing Cloud (Content Builder) to optimize production lifecycles. Applying AMPscript for logic-based content personalization and data-driven engagement.
- **Automation & Internal Tooling:** Architected support tools using React and Astro to automate repetitive development tasks, successfully reducing manual lead times and minimizing human error.
- **Agile Collaboration:** Delivered requirements in Scrum environments using Jira for cross-team coordination with PMs and QA.

Fullstack Developer | Freelance (E-commerce Project)

March 2023 - May 2023

- **Fullstack Development:** Built a responsive e-commerce platform from the ground up using React, Node.js, and RESTful APIs, focusing on scalable architecture and performance optimization.
- **System Integration:** Developed interactive front-end components and integrated secure database solutions to ensure seamless data flow and end-to-end functionality.

Customer Service Representative | AT&T (Language Line)

October 2021 - December 2021

- **Bilingual Technical Support:** Handled high-volume technical and billing inquiries for U.S.-based customers, demonstrating highly-level fluency and real-time problem-solving in a fast-paced environment.

EDUCATION

- B.S. in Software Engineering | Universidad Manuela Beltrán | January 2020 – December 2025
- Fullstack Software Development | Soy Henry (800+ hours of intensive coding) | January 2023 – May 2023
- Systems Technician | SENA (Servicio Nacional de Aprendizaje) | January 2018 – December 2019

TECH SKILLS

- Email Engineering: HTML5/CSS3 (Bulletproof), VML, Dark Mode Optimization, Responsive Design, Litmus.
- SFMC Ecosystem: Content Builder, Email Studio (Technical Setup), AMPscript (Intermediate).
- Web Development: JavaScript (ES6+), React, React Native, Astro, Node.js, RESTful APIs, Git.
- Design Tools: Figma, Adobe Photoshop, Adobe Illustrator.
- Methodologies: Agile/Scrum, Jira, Unit Testing, SDLC.

CERTIFICATIONS

- EF Set Certificate C1 English
- Salesforce Certified Email Specialist | Salesforce.
- Fullstack Developer Bootcamp Certificate. | Soy Henry
